EUROPEAN RESPIRATORY DISEASE

MEDIA PACK

Overview

European Respiratory Disease is a peer-reviewed bi-annual journal comprising review articles, case reports, practice guides, theoretical discussions and original research. It features balanced and comprehensive articles written by leading authorities, addressing the most important and salient developments in the field of respiratory disease.

European Respiratory Disease endeavours to support physicians, clinicians and related healthcare professionals in continuously developing their knowledge, effectiveness and productivity. The editorial policy has been designed to encourage discussion among this peer group.

Editorial Expertise

European Respiratory Disease is supported by various levels of expertise:

- Guidance from an Editorial Board consisting of leading authorities from a variety of respiratory disciplines.
- Invited contributors are recognised authorities from their respective fields.
- Peer review conducted by experts appointed for their experience and knowledge of a specific topic.
- An experienced team of Editors and Technical Editors.
