touchREVIEWS

in Respiratory & Pulmonary Diseases

Established: January 2015 Frequency: Annual
Current edition: Volume 7 Issue 1, 2022

Aims and Scope

- *touchREVIEWS in Respiratory & Pulmonary Diseases* enables time-pressured physicians to stay abreast of key advances and opinion in respiratory care practice.
- *touchREVIEWS in Respiratory & Pulmonary Diseases* comprises balanced and comprehensive articles written by leading authorities, addressing the most important and salient developments in the respiratory field.
- *touchREVIEWS in Respiratory & Pulmonary Diseases* endeavors to support physicians, clinicians, and related healthcare professionals in continuously developing their knowledge, effectiveness, and productivity. The editorial policy has been designed to encourage discussion among this peer group.
- All articles are subject to peer review, and must adhere to the ICMJE, GPP-3 and COPE guidelines.

Structure and Format

- *touchREVIEWS in Respiratory & Pulmonary Diseases* is a peer-reviewed, free-to-access, bi-annual journal comprising review articles, case reports, editorials, special reports and original research.
- The structure of each edition of the publication comprises section categories determined by the Editor. The degree of coverage assigned to each category is the decision of the Editor, and in part reflects the views of the Editorial Board.
- All articles disclose any author disclosures along with any funding, financial support, and medical writing assistance.
- Each edition of *touchREVIEWS in Respiratory & Pulmonary Diseases* is published in full online at www.touchRESPIRATORY.com

Editorial Expertise

touchREVIEWS in Respiratory & Pulmonary Diseases is supported by various levels of expertise:

- Guidance from an Editorial Board consisting of leading authorities from a variety of respiratory disciplines.
- Invited contributors who are recognized authorities from their respective fields.
- Peer review—conducted by experts appointed for their experience and knowledge of a specific topic.
- An experienced team of Editors and Technical Editors.

Peer Review

- On submission, all articles are assessed by the Editor to determine their suitability for inclusion and appropriateness for peer review.
- The Editor identifies at least two appropriate reviewers, who are selected on the basis of their specialist knowledge in the relevant area, following consultation with a member of the Editorial Board where necessary.
- We aim to have the final peer review decision within 4 weeks.

- Following review, papers are either accepted without modification, returned to the author(s) to incorporate required changes or not accepted for publication.
- The Editor reserves the right to accept or reject any proposed amendments on the advice of the Editorial Board and reviewers.

Submissions and Instructions for Authors

- The Editor commissions articles with guidance from the Editorial Board and unsolicited articles are welcomed.
- The Editor is always keen to hear from authors wishing to discuss potential submissions, and will give due consideration to any proposals.
- Please contact the Editor for further details.
- The 'Instructions for Authors' information is available for download at www.touchRESPIRATORY.com

Reprints and Advertising

Reprints are available for all articles (minimum order 500 copies). Please contact editorialmanager@touchmedicalmedia.com for more information.

Abstracting and Indexing

touchREVIEWS in Respiratory & Pulmonary Diseases is abstracted, indexed, and listed in Genamics JournalSeek, Google Scholar and IndexCopernicus.

Online

www.touchmedicalmedia.com provides clinicians and other industry professionals with a free resource of articles from over 12 bi-annual titles, spanning eight therapy areas including cardiology, endocrinology, immunology, infectious diseases, neurology, oncology & haematology, ophthalmology and respiratory.

Society Partners

touchRESPIRATORY.com has developed very valuable society partnerships with the most respected not-for-profit medical societies both in Europe and the USA. These partnerships are key as touchRESPIRATORY.com helps to promote awareness of these medical societies while also providing open access, peer-reviewed articles and multimedia content to the society members, which ensures that the community is kept up-to-date with the latest cutting-edge content and opinion from world-renowned doctors.

About Touch Medical Media

Touch Medical Media publishes a rich and diverse portfolio of fully referenced free-to-access, peer reviewed journals across the clinical and pharmaceutical arenas. Touch Medical Media aims to assist in the education and practice of healthcare and pharmaceutical professionals. 

Minimizing the clinical burden of chronic rhinosinusitis with nasal polyposis

What do the data from **AAAAI 2022** tell us about improving outcomes for patients with **EoE**?

The ultimate goal is
bringing new treatments
to our patients with EoE
and improving their
symptoms and quality
of life going forward.

DR EVAN DELLON

Maintaining quality of life in patients with later-onset SMA:

The patient journey from diagnosis to management

This activity is funded by an independent medical education grant from Genentech, a member of the Roche group, and Novartis Gene Therapies, Inc. This activity is jointly provided by USF Health and touchIME.
